

Instructions for Localizing objects using Bounding Boxes.

Dear Annotator Please follow the instructions to localize fashionista images.

1. Draw Bounding Box and label it in text box

First step is to draw the bounding box using mouse pointer around the object of interest as shown in following picture. In the given Fig.1 bounding boxes have been drawn around the upper body, sweater and bag of fashionista and are labelled with respective labels.

2. Submit the drawn bounding boxes

After successful bounding box drawing and labelling press enter and submit button when done. Also please note that it is possible to draw more than one bounding box and bounding box inside another bounding box as per the requirement.

Note: If you draw wrong bounding boxes you can reset by pressing the reset button. But after submission your localised image will not change as shown in Fig 2.

Detailed Instructions for Localisation

Localised Image Result

The image shows a woman with long brown hair, wearing a grey cardigan, a red and blue patterned scarf, and black ripped jeans. She is holding a brown bag. Three bounding boxes are drawn on the image: one labeled 'upper-body' covering her torso and head, one labeled 'bag' covering the brown bag, and one labeled 'create' covering her face and upper torso.

Fig 2.

3. Mark the item as non fashion Item

Sometimes we encounter the items which are not related to fashion, Please mark them as non-fashion items as shown in the given **Fig.3** . Please read the detailed criteria for non fashion items given in the form.
